# WORLD-CLASS ATHLETES

TRUST THEIR HEALTH TO USANA

## WTA

"Up until now, the inability of our players to take vitamins and health supplements without fear of accidentally ingesting a prohibited substance has been a real issue. In USANA, the Tour has found a manufacturer that can not only meet the Tour's...rigorous anti-doping standards, but one that is also willing to back it up with both athlete and Tour guarantees. This is fantastic news for players, and a critically important step forward in ensuring player health while maintaining the strict anti-doping standards that are necessary to continue to ensure that women's tennis remains a clean sport."

—Larry Scott, CEO of the Sony Ericsson WTA Tour
